Since 1996, part of Voies Off's mission statement is the sponsoring of emerging talents in photography. Voies Off provides them with an international stage during the Rencontres d'Arles, an Award and for a shorter time, a Gallery and a Pro Lab.

Following up on our mission-statement to promote contemporary creative photography, we have founded Voies Off Editions, our publishing branch, to produce artists' portfolios, prints, and artists' books for art amateurs and collectors.

In a [specially refurbished gallery](#), the public is invited to a private viewing of our collections in a friendly atmosphere. This exhibition is an opportunity to offer [a specific and thematic look at the Voies Off Editions](#) to discover our [portfolios and art prints](#) otherwise.

Published in strict collaboration with their authors, our portfolios are presented in finely handcrafted archival boxes containing between 8 and 20 prints by a contemporary photographer. Photographs are printed on archival art paper in editions of 50, signed by both Voies Off and the artist. Our goal is to offer fine-art products, in limited editions, signed by the artists, within a price-range that will make them reasonably accessible. Our intention is to promote young talents as well as renowned photographers while encouraging collecting contemporary photography.
